- ◆ Outstanding achievements by The St David's College Easter Team - desks are completed and a water system installed at Hosannah School
- ◆ A Christian leadership month is taking shape - a team of 17-23 year olds will tour Uganda and Southern Sudan in Late July and August this year.
- ◆ Link International Travel is up and running and Gavin provides an efficient admin system for teams and safe, challenging and effective programmes

## Chrysalis - a big new dream

A chrysalis is a safe place where transformation takes place. It is also a merger of the names Christina and Alice! Last July, Christina's heart was touched by the appalling conditions mums were giving birth to babies....she followed her heart and went to investigate further in February. She and John Njendahayo birthed a solution - a Community centre would be built on the outskirts of Kampala where emergency accommodation could be provided for destitute families, a maternity clinic set up and in time a school built. Alice has joined Christina's dream and together with friends and family will make it happen - The Chrysalis Link Centre - a place of transformation.

## Christina represents St David's College

Over the February half-term, Christina represented the pupils of St David's College at Hosannah School, Katwe United School and at the beads refugee community. She distributed the funds raised at Christmas and discusses how the money will be used.

Many children are now supported through school via the Christmas card schemes, beads project & sponsors.

## The Easter Team

Using the funds raised at Christmas and during the Easter Term, the team build desks and a water system for Hosannah School.

Pupils buy beds with the funds they raised and deliver to Emmanuel's Grandmother.

## Campsite Project

Progress at the campsite has been massive and teams regularly visit and contribute to this remote rural community.

## Inspiration

John continues to provide inspirational leadership among his community and open doors for our young people.

## Fund Raising

A huge thank you for all your support so far - lives have been changed & now....big dreams and big targets set by the young people - let's support them & make their dreams a reality.
